PROGRAM OVERVIEW

This is a free 20 hour energy efficiency technical training for industry professionals seeking to advance their skillsets as training providers, educators and instructors. This course has been specifically designed to provide selected candidates with our step by step process, curriculum and instructional andragogy. Graduates of this course will be connected to paid/contract teaching opportunities

The program is delivered virtually, and focuses on energy efficiency, outreach, education and implementation assistance initiatives for small commercial properties. This program is open to trainers, regardless of background.

Train the Trainer Candidate Requirements:

- 3 years of clean energy industry experience
- 1 year of teaching clean energy concepts experience

All applicants will undergo interviews, evaluations, and a screening/selection process. Applicants are encouraged to apply early. Space is limited and not guaranteed.
